

Riyadh, August 21, 2024

Your Excellency,

Every year, Riyadh Art hosts two major art events: Noor Riyadh, the annual festival of light and art, and Tuwaiq Sculpture, a symposium inviting the participation of sculptors from around the world. These events offer individual countries the opportunity to promote their local artists while supporting Riyadh's ambition to become a leading global city for quality of life in line with Saudi Arabia's Vision 2030.

Now in its 6th edition, Tuwaiq Sculpture 2025 will take place from January 15 to February 8, 2025, under the theme "From Then To Now." We are currently accepting artist applications, with the submission period closing on September 8, 2024. An independent committee of experts in art and sculpture from various fields will review and evaluate the submissions. A total of 30 local and international artists will be selected to partake in this prestigious symposium, convening in Riyadh for 22 days of live sculpting.

The symposium offers an artist fee and covers all associated expenses, including accommodation and return flights for international participants. Once the sculptures are completed, they will be exhibited before being permanently installed across Riyadh, enhancing the city's urban landscape.

Since its inception, the Tuwaiq Sculpture symposium has engaged with over 120 world-renowned sculptors from numerous countries and has attracted thousands of visitors. It is an integral part of the Riyadh Art program, which aims to transform the city into a gallery without walls. Additionally, previous competitions have attracted extensive media coverage both locally and internationally due to the quality of participating artists and the symposium's socio-cultural impact.

The success of Tuwaiq Sculpture relies on the representation of talented sculptors from all corners of the globe. This is why we extend this open call invitation to you, so you can share it with your artistic community back home. We look forward to counting artists from your country among the selected sculptors for this upcoming edition, with the hope that their artworks will become permanent features of our Saudi capital's urban fabric.

To facilitate participation, we kindly request that you share the following link with your artistic community, providing them with all necessary information and the application platform: <https://riyadhart.sa/en/opencall/tuwaiq-sculpture-2025-open-call/>

1. General Information

1.1. Background

The rapid growth in population and subsequent urban expansion of Riyadh, the capital of Saudi Arabia in the last two decades, together with a booming economy, have created an opportunity for the city to revitalise the urban landscape through art and cultural development. Riyadh Art was launched as part of Riyadh's Four Grand Projects by His Majesty King Salman bin Abdulaziz in March 2019, under supervision of the Committee, chaired by His Royal Highness Mohammad bin Salman bin Abdulaziz, Crown Prince, Prime Minister and Chairman of the Board of Directors of the Royal Commission for the City (RCRC) of Riyadh, with an aim to transform the Saudi Capital into a 'Gallery without Walls'.

The RCRC is committed to Riyadh Art's vision, by encouraging excellence in the design of artistic interventions, public buildings, parks, streets, and infrastructure. RCRC recognizes that public art, along with architecture, landscape architecture, urban design, environmental-based design, and historic preservation are some of the tools the city can use to face this challenge.

Riyadh Art will engage aspects of Riyadh's landscape, urban design, history and culture that make the city distinct and special among world capitals. It will also aim to reflect Saudi Arabia's Vision 2030 plan and create strong, meaningful connections between the citizens of Riyadh, their community, and civic life.

Riyadh Art's vast scope has been divided into a program of 10 projects and two annual festivals: Tuwaiq Sculpture and Noor Riyadh.

1.2. Tuwaiq Sculpture

Tuwaiq Sculpture is an international sculpture symposium, part of Riyadh Art, one of the largest public art programmes undertaken in the world today. Taking place annually since 2019, Tuwaiq Sculpture has so far engaged over 120 internationally renowned sculptors and thousands of visitors.

Celebrating its 6th edition, Tuwaiq Sculpture will host a group of 30 local and international sculptors from 15 January to 8 February, 2025. Artists will create original artworks that will later become an integral part of Riyadh's urban fabric. The entire process will be open and accessible to the public, as a live sculpture-making event based at a special location in Riyadh.

The Aim: To promote new dialogues in line with Riyadh Art's vision, and create cultural platforms where local and international artists meet and collaborate, effectively contributing to the enrichment of the cultural scene in the Kingdom of Saudi Arabia.

1.5. Theme

The curatorial theme for Tuwaiq Sculpture 2025 is **"From Then to Now"** - "Joy in the struggle of making".

A work of art is never completed. Artists, though, opt to trade completion for abandonment. There can be a wealth of beauty to be taken in from this absurd condition, and the selflessness of such a seemingly endless quest can be a source of freedom and fulfillment.

The symposium aims to acknowledge artistic practices as a fundamental part of the cultural life of cities and as an instrument for collective wellbeing. In times of fast-paced development, such

as the one Riyadh is experiencing, the legacy of Tuwaiq's Sculpture is of particular importance; these will become a placemaking anchor for the present and a witness for the future.

This curatorial proposal vindicates the need for symbolic acts in contemporary society. It invites us to appreciate the fulfillment and poetry contained in the artist's struggle.

1.6. Sculpture Relocation

After the Exhibition, the sculptures will enrich the Riyadh Art's collection and later become a permanent feature of the Saudi capital's urban fabric. Exact relocation sites are going to be announced in due course.
